

attica graphic board

Smurfit Kappa Attica - The Netherlands

- This super smooth, uncoated grey board from Europe's leading board manufacturer, Kappa Attica, features superior flatness and rigidity which allows easy processing.
- Attica Graphic Board has been developed especially for the production of strong luxury applications, on to which the converter can apply a high-quality preprinted label. This is facilitated by the board's high level of rigidity, and the side onto which the label is placed is extremely smooth.
